Dear Ms. Milliken:

I commend Futures for Kids (F4K) on its efforts to help students discover their passion and apply it to their future. As someone who is passionate about reading, I understand the role that pursuing your dreams plays in creating a lifelong love of learning.

F4K incorporates that passion into ensuring success for all students as it helps them prepare for tomorrow. The wide range of information available in F4K gives each student the ability to find their niche and establish a plan that places them on the path to their future. F4K provides more than just information to point students in the right direction, it provides a framework of connections to confirm and guide the students along the way. This network of community partners and career mentors is innovative and long-overdue, and I fully encourage our businesses to support the students of Caldwell County through this laudable program.

Sincerely,

Steve Stone, Ed. D.  
Superintendent
