Dear Susan,

I would like to thank you for bringing the Futures for Kids (F4K) program to my attention. We welcome such a resource that allows the students to actively participate in planning for their future while developing effective partnerships with parents and the community.

F4K's user-friendly format and interactive content drives student interest in career exploration and planning, while the administrative tools give educators valuable access to the students' goals. The interaction with the business community is a vital asset to the program, reinforcing relevance and allowing students to learn from those who have achieved success while providing a means for the community to invest in the students.

New Hanover County Schools believes that through strong partnerships and a shared vision, our schools, parents, and community can work together to achieve quality educational results for all. We look forward to F4K working alongside us on that journey, ensuring our students understand the opportunities available to them and are equipped with the skills necessary to succeed.

Sincerely,

Alfred H. Lerch, Jr.
